

Application Name: SCALES

(Specialty Court Application & Legal Exchange System)

Release #:

1.1.1

Release Date:

09/18/2020

Audience:

Current SCALES users

Summary of Release:

The focus of this release is to allow current SCALES users to create and manage specialty court cases for participants accepted into their program prior to the release of SCALES 1.1 on 08/12/20.

Specifically, users will be able to:

1. Search and select referring cases from within the last 8 years
2. Accept/Reject these cases without completing RANT/DWI RANT assessments
3. Select closed cases within the application for referrals for these cases

Additionally, the following minor enhancements were completed in this release:

1. Added specialty court case type to the applicant dashboard for accepted applications
2. Turned on functionality to the applicant dashboard to allow reports to be saved
3. Added a staffing summary print button inside the referral application (top right of the screen)
4. Added a back and print button to the bottom of the RANT and DWI RANT reports
5. Replaced stigmatizing language within RANT and DWI RANT, for example replaced "substance abuse" with "substance use"
6. Added the number of questions to the header in RANT and DWI RANT
7. Added incentives and sanctions columns to the docket notes dashboard
8. Added coding rules to enter 0 if applicant refused breath analyzer on DWI RANT
