

Application Name: COURTCONNECT

Apex Build

Release #:

1.0.2

Release Date:

11/09/2020

Summary of Release:

Several defects and enhancements addressed in Internal CourtConnect & Courthouse CourtConnect as described below:

- Performance updates on Person and Business Name search (multiple Workfront tickets)
- Performance updates on Docket filings by date search (multiple Workfront tickets)
- Balance reporting issue on a case in Criminal History search (Workfront #513919)
- Login parameters not appearing for some versions of IE11 or older. (Workfront #513922)
- Criminal history searches not showing actual Id in "Id" column; showing internal Id like other searches. (Workfront #513917)
- Active service documents only should display in red. (Workfront #513184)
- Alias/grouping issues in Criminal History Search. (Workfront #513182)
- Case filing search not recognizing cases that are grouped within predecessors (RF - FV - 12). (Workfront #513181)
- Password logic update; rules for beginning with special character compliance with Contexte & hitting enter in change password screen triggers password change. (Workfront #513122)
- Error on Docket Entries tab for entries with over 4,000 characters of docket text. ORA-22835: Buffer too small for CLOB to CHAR or BLOB to RAW conversion (actual: 4250, maximum: 4000) (Workfront #516984)
- Consolidate County & Court Code fields in ICC/CCC. (Workfront #517563)
- Email not always being sent on password resets; a temporary password does not always conform with password rules and causes the process to fail (Described in backlog feature #513932). (Workfront #518814)
