

The AOC is excited to debut an initial draft of the new Sentencing Order Form for Contexte. This new form is currently still in development and feedback after the training session would be greatly appreciated. An EMMA Notification will be sent out to all Contexte users later this year with additional information and a production implementation date.

To access the new form during the conference from an Internet Explorer Browser, type in the following URL:

**[courts.nonprod.aoc.arkansas.gov/conference.html](https://courts.nonprod.aoc.arkansas.gov/conference.html)**

This is the landing site for the 2017 ACAP Systems Conference training sessions. From this site, a link is available to go directly to the new Sentencing Order Form.

**Please use your Production User ID and Password to log in.**

The new Sentencing Order Form may also be accessed from within Contexte from a button on the **CMADISP** form on the **Sentence** tab.
