ADVANCE OF COURTROOM TECHNOLOGY

#2017ACAP

Change will come even if we do nothing, but it will not be the change we want.

-- Hon. John T. Broderick, Jr. - Chief Justice,
Supreme Court of New Hampshire

PANEL PARTICIPANTS

#2017ACAP

- Judge McCallum
- Sharon Fields – Court Reporter, 19th Judicial District West
- Chris Beason – Judicial Assistant to Judge Burnett

DIGITAL COURT REPORTING

#2017ACAP

In an era when technology is improving and court budgets are shrinking, legal specialists say that courts across the country are inevitably turning to digital recording systems.

-- Michael Levenson-- Boston Globe

COURTROOM TECHNOLOGY

#2017ACAP

Technology is a powerful enabler that can empower courts to meet core purposes and responsibilities, even while severe economic pressures reduce court staff, reduce hours of operation, and even close court locations. To harness technology for this purpose, serious efforts are needed to examine process-reengineering opportunities, and courts must plan to (a) migrate from document to content management and (b) initiate customer relations management to improve the quality of justice, access to justice, and public trust and confidence in courts as an institution.

-- Chris Crawford – Justice Served
